

GET READY FOR OUR SITE VISIT!

WHAT DO WE NEED FROM YOU BEFORE WE VISIT?

- Full site address (ideally What3Words)
- Main site contact name and number – please ensure this is site management personnel
- Full details of designated parking area for the van
- Any induction and security requirements for our team prior to the visit
- Total number of workers expected to be on site that day

PREPARING FOR OUR VISIT

1. Designate an area for our van to park, ideally somewhere with high footfall at the site entrance or in a main loading bay area.
2. Set up an area for the session to take place, preferably outside with plenty of space, or in a meeting room or canteen.
3. Provide free teas/coffees to workers during our visit. A cuppa always helps get the conversation started! You could also consider organising a food van for extra points!
4. Communicate the visit with site managers so they can encourage people to attend the talk on the day.

5. Make security and gate staff aware prior to the event to ensure our team can access your site efficiently on the day.
6. Download and display our site poster to let your team know when we're stopping by – simply complete the date, time and location and share around your site.
7. Share your visit online! Please send us any professional photos or videos taken on the day.

WHAT TO EXPECT ON THE DAY

Our team will deliver an informal and engaging #MakeItVisible team talk to everyone on site, share their first-hand life experiences and focus on the importance of positive mental health and wellbeing.

Outside of these sessions, there will be an opportunity to speak confidentially with our team on a one-to-one basis and ask any questions they may have.

We recommend a full stand down in order to maximise the impact of our visit and provide support to everyone on site.
